

**STATE OF TENNESSEE**

**TREASURY DEPARTMENT**

STATE CAPITOL  
NASHVILLE, TENNESSEE 37243-0225

**Database Administrator**

The Tennessee Department of Treasury impacts the lives of Tennesseans every day. We safeguard Tennessee taxpayer dollars, teach citizens to make financial decisions, manage approximately \$50 Billion Dollar assets in house for the State of Tennessee pension fund, provide retirement coverage to State employees, and return abandoned property.

**DESCRIPTION:**

The Information Systems Division supports the Treasury Department by creating, maintaining, and managing the technology infrastructure needed for Department operations.

**RESPONSIBILITIES:**

- Ensure database performance by planning, developing, maintaining, and securing databases
- Assist database developers or other database administrators in designing, implementing, or revising data structures and database systems
- Evaluate information to comply with standards and document/record information
- Monitor and control resources

**MINIMUM QUALIFICATIONS:**

- Bachelor's degree in Information Systems, Computer Science, or related field
- Three years of professional level experience in the analysis, design, or programming of business information systems utilizing database management systems (e.g., SQL Server, Oracle, and DB2)
- One year of specialized experience that involved data modeling, database design/development, or performance monitoring and tuning of database management systems
